KRAJ NA OVAJ NAČIN JE URAĐENA POTPUNA INSTALACIJA !!!

Kada ste to završilimožete se povezati VPN konekcijom na WEB SERVER na već opisan način, i izvršiti "autorizaciju" karticom – unošenjem "tajnog ključa - PIN-a" Kada radite SA KARTICOM, ČITAČ MORA DA JE PRIVEZAN NA RAČUNAR ! Управа за трезор Сектор за информационе технологије Пројекат : ИСПП плус

Karticu ubacite u čitač <u>pre nego što kliknete na "**autorizovani pristup**"</u> Ako Vam čitač **NIJE PRIVEZAN** – dobićete poruku

Kliknite na X da zatvorite poruku i onda PRIKAČITE USB konektor čitača na računar i postavite karticu u čitač – pa ponovo kliknite na "AUTORIZOVAN PRISTUP" i dobićete ekran u kome u GORNJEM prozoru ("SmartCardprijava") unesite PIN (tajni ključ) koji ste dobili sa karticom sa Pristupnim nalogom i odobrenjem (VPN). Zatim kliknite na "boldovano polje" -"Prijava"

Ako ste uneli tačan **PIN** program Vas "pušta" dalje...ako niste, pazite da 3 puta ne ponovite grešku — inače će Vam se kartica "zaključati" <u></u>Na kartici je sertifikat na Vaše ime i sa Vašim dozvolama za rad i njegova trajost je 3 godine od dana izdavanja.To je Vaš "**digitalni potpis**" !

napomena:

Korisnici imaju mogućnost **da i sami odblokiraju** "zaključanu" karticu - programom " Toolbox". Pročitati uputstvo "D.Važnost sertifikata+deblokada" u folderu "Obavezno pročitajte"
